

# Sushan Yadav

Frontend Developer | [sushan.dev](#) | sushanyadav98@gmail.com

I love building interactive web experiences using technologies such as React & NextJS. I've been tinkering with React and other frontend technologies for almost two years and now I'm looking for an opportunity to learn and grow as a Frontend Developer.

---

## Experience

### TrueMark - [truemark.dev](#)

Frontend Developer | Aug 2020 – Feb 2021

Here are a few projects I did under TrueMark

#### Trendline store - [trendlinestore.com](#)

[React](#), [Rest API](#), [Redux](#), [Redux Saga](#), [Bootstrap](#)

- Used React and Redux for eCommerce experience
- Used Bootstrap for mobile-first / responsiveness
- Used i18n for localization

#### Flexonet - [flexonet.dk](#)

[React](#), [Redux](#), [Redux Thunk](#), [PropTypes](#), [SCSS](#)

- Used React and Redux for dashboard
- Used SCSS for styling

## Personal Projects

Feb 2021 – Currently

#### Stripe Clone - [stripe-clone-home.netlify.app](#)

[Vanilla Javascript](#), [HTML](#), [CSS](#)

- Cloned the stripe website using Vanilla Javascript for practice
- Used TailwindCSS for styling
- Used Prism library for syntax highlighting

#### Portfolio - [sushan.dev](#)

[NextJS](#), [TailwindCSS](#), [GSAP](#)

- Used NextJS for building production ready website
- Used TailwindCSS for styling
- Used GSAP for basic animation and locomotive scroll with GSAP's scroll trigger

## Skills
